

New Source Review newspaper advertisements for construction permit applications, December 9, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: December 7, December 8, or December 9, 2004. Public notices are generally published every two weeks. The previous publication of public notices was November 23 – 25, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Espey Gin Company, Inc. with a mailing address of P.O. Box 825, Huntingdon, TN 38344. They seek to obtain an air contaminant permit (Division identification number: 09-0015-01/57780) for modification of a Cotton Gin located on 9040 College Street, McLemoresville, TN 38235. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modifications are to correct a mis-stated gin stand capacity on the operating permit and to increase the annual bales of cotton processed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. E. Flowers is the assigned Division person.

For the “Carroll County News-Leader”--published once on or before Thursday, December 9, 2004.

The applicant is American Phoenix, Inc. with a mailing address of 800 Industrial Park, Trenton, TN 38382. They seek to obtain an air contaminant permit (Division identification number: 27-0179-01/57784) for a Mixing Operation located at the same address. This existing operation consists of equipment used to mix raw chemical powders. The powders are then sealed in bags for shipment to customers. Two baghouses are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. G. Latif is the assigned Division person.

For the Gibson County “Milan Mirror-Exchange”--published once on or before Thursday, December 9, 2004.

The applicant is Valley Packaging Corporation with a mailing address of 275 Industrial Boulevard, Pulaski, TN 38478. They seek to obtain an air contaminant permit (Division identification number: 28-0090-01/57665) for

modification of a Flexographic Printing Operation located at the same address. The proposed modification is the addition of a Ward 4-color rotary die-cutter. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants emitted from this source would increase. Mr. Jim A. Attar is the assigned Division person.

For the Giles County "Pulaski Citizen"--published once on or before Thursday, December 9, 2004.

The applicant is Petosky Plastics, Inc. with a mailing address of 5725 Commerce Blvd, Morristown, TN 37814. They seek to obtain an air contaminant permit (Division identification number: 32-0173-10/57630) for construction of Blown Film Extrusion Line at 5320 East Morris Boulevard, Morristown, TN 37814. This proposed operation would consist of equipment necessary for the extrusion of blown film. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. V. Murrell is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, December 9, 2004.

The applicant is ICO Polymers with a mailing address of P.O. Box 145, Grand Junction, TN 38039. They seek to obtain an air contaminant permit (Division identification number: 35-0054-22/57806) for modification of a Resizing of Polymer (plastic) Materials Operation located at the same address. This existing operation receives polymer materials for resizing for direct sale or customer request. Some plastic materials are only sliced to smaller sizes, while some materials are ground to pellet sizes. These resized materials are shipped to the customer or stored in closed containers for future use. A baghouse is used for pollution control. The requested modification is to add another materials grinding operation. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. Robert Benjamin is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times"--published once on or before Thursday, December 9, 2004.

The applicant is NCI Building Systems, L. P. with a mailing address of 7301 Fairview Road, Houston, TX 77041. They seek to obtain an air contaminant permit (Division identification number: 39-0074-01/57805) for modification of a Surface Coating Operation located at 422 Kirby Drive, Lexington, TN 38351. This existing operation consists of two spray paint booths and associated equipment used to coat metal building components. Panel filters are used for pollution control. The requested modification is to increase production and paint usage. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Smith is the assigned Division person.

For the Henderson County "Lexington Progress"--published once on or before Thursday, December 9, 2004.

The applicant is Maury County Asphalt, Inc. with a mailing address of 135 Old Carters Creek Pike, Franklin, TN 37064. They seek to obtain an air contaminant permit (Division identification number: 60-0194-01/57736) to construct a Batch Mix Asphalt Plant on McKinley Joyce Road, Columbia, TN 37081. The proposed operation would consist of a 250 ton per hour batch mix asphalt plant. A baghouse and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Benjamin is the assigned Division person.

For the Maury County "Daily Herald"--published once on or before Thursday, December 9, 2004.

The applicant is Department of Energy-East Tennessee Technology Park with a mailing address of P.O. Box 2003, Oak Ridge, TN 37831-7136. They seek to obtain an air contaminant permit (Division identification number: 73-0106-78/57808) for modification of an Incinerator located on the Oak Ridge Turnpike – Route 58, Oak Ridge, TN 37380. This proposed modification would increase allowable air contaminant emissions for this source. This increase in allowable emissions will meet the National Emission Standard for Hazardous Air Pollutants (NESHAP). Existing pollution control equipment would continue to operate. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. V. Murrell is the assigned Division person.

For the Roane County “Roane County News”--published once on or before Thursday, December 9, 2004.
